

# Place value mat (hundreds)

Name: \_\_\_\_\_

**Directions:** Show how to make a multi-digit number by putting straws (or other objects), drawings, or written numbers in each column on the mat to represent each of the place values.

**Example:** For 142, put 10 bundles that each have 10 straws in the hundreds column to represent 100, four bundles of 10 straws in the tens column to represent 40, and two single straws in the ones column to represent 2.

Hundreds	Tens	Ones
